

European Association of Urology

*5th Meeting of the European Association
of Andrological Urology (ESAU)*

*Amsterdam, The Netherlands,
6-7 October 2006*

Programme

Welcome to Amsterdam

Dear colleagues,

The fourth fall meeting of the European Society of Andrological Urology (ESAU) will be held in the World Trade Centre in Amsterdam. Theme of this meeting is *testicular dysgenesis and hypogonadism*. You are most welcome to participate. The organising committee has managed to invite excellent speakers in the field of male reproduction and sexology to present keynote lectures on testicular dysgenesis, testicular germ cell tumours and male fertility, cryptorchidism, hypogonadism and sexual dysfunction and sexual consequences of treating urological malignancies. You will have a unique opportunity to learn all about the latest developments in urological andrology. A poster session will be held to give young researchers the opportunity to present their work in the field of andrology.

On Saturday the 7th of October a satellite symposium will be held on the topic "Ageing Male"; and include lectures on androgen deficiency and the metabolic syndrome, male sexual dysfunction, and prostate cancer safety and hormonal replacement therapy.

On Thursday the 5th of October a course on male sexual dysfunction will be organised by the European Academy of Andrology (EAA) and the ESAU: this will be one of the four courses organised in 2006 for urologists and endocrinologist to obtain *the European Certificate in Andrology*. A limited number of candidates can participate in this training program, which will also include an examination of knowledge and skills in the diagnosis and treatment of male sexual dysfunction. Don't miss this opportunity if you wish to become a certified andrologist.

On Friday evening a congress dinner will be organised in Amsterdam for all delegates. Looking forward to meeting many of you in Amsterdam in October 2006.

Dr. Gert Dohle,
Chairman 5th ESAU Meeting

Prof. Vincenzo Mirone
Chairman ESAU

The ESAU is a full member of the EAU Section Office.
